## X°Tone – MUSCLE STIMULATOR

### UNIQUE FEATURES

- HIEMT (high energy focused electromagnetic wave) technology: Easy, safe and efficient!
- Targets motor nerve cells to generate an action potential, which directly stimulates muscle contraction.
- HIEMT will not damage other joints or bones of the body
- During one session of 30minute treatment, the muscles are contracted 49,500 times with high frequency and high intensity, which cannot be achieved in general exercise!
- HIEMT can effectively strengthen the muscles of the abdomen or buttocks, and increase the number and volume of muscle fibres.

### PRODUCT SPECIFICATIONS

Magnetic wave (energy)	0-7 Tesla
Voltage	110-220V 50-60/Hz
Output power	2600W
Frequency	F1:1-10Hz F2:1-100Hz
Pulse Width	300 us
Treatment modes	TRAINING MODE, PRO MODE, RECOVERY MODE
Media screens	1 x 12 inch 16:9
Treatment handle	I-H1, II-H2
machine size	384mm*590mm*1387mm
