Drifloat: floatation tanks

UNIQUE FEATURES

- Freestanding open floatation tanks in dry technology
- A thin, tactile membrane between the user's body and the salt solution so the user can float in clothes.
- By eliminating user contact with the salt solution, contamination is avoided and filtration equipment is not needed.
- No constant maintenance of the salt-water solution is required.

PRODUCT SPECIFICATIONS

- System app
- Internal lighting
- Fabrics are 100% commercial polyester, flame retarded, water and stain resistant, easy to clean.

ONLY ON DEMAND
